Char

Last Saturday my husband Ralph stopped at your station to ask for directions to Highway 99. One of your men was kind enough to make a map for him. I want you to know how much that meant to him after losing his way in unfamiliar territory - This reinforces my thought that firefighters are among God's chosen people (of course I must admit to being a bit prejudiced as my son Rich (Daene is a firefighter here in Sacramento at the station on Butano)

May God bless you all,
Keep you safe and close
to Him.
